

Friday October 31st, 2025

A gathering where no one is left out.

Another football is possible. A better world, as well.

A very special day in which thousand of girls, boys and young people will play again in their schools and rural communities to celebrate what we can do together.

We invite you to join us in this campaign for education, art, health, environment, culture and community development.

Global Gathering in numbers:

- More than **500** schools and rural communities participate.
- In more than **40** countries, in the six continents.
 - **65.000** people perform solidarity actions.
- **48.000** children and young people celebrate by playing football.

Participating is very easy!

All it takes is to organize a solidarity action in your school or rural community and then celebrate it with a local football gathering.

The results of those good ideas and actions will go around the world thanks to the thousands of prime movers, participants and supporters.

Enroll your school, organization or community at:
